ABC's "Extreme Makeover: Home Edition" Coming to St. Louis

Builders Callier Thompson Shea and Consolidated Construction Group call for building team and support volunteers

ST. LOUIS – Callier Thompson Shea Construction and Design, LLC and Consolidated Construction Group Inc. today announced they will join ABC's "Extreme Makeover: Home Edition" for an upcoming build in the greater St. Louis area.

The builders were selected to oversee and implement an aggressive one-week build that will change the life of a deserving St. Louis family. While the exact location of the project has not yet been disclosed, the builders look forward to taking on this incredible mission to give one of five families selected in the area a life-changing gift – a brand new home.

"A project of this magnitude and timeline is a challenge for any company," said John Shea, president of Callier Thompson Shea Construction and Design, "and we are excited to partner with Consolidated Construction to lead this build. The citizens and corporations of St. Louis always rise to the occasion to help those in need, and we look forward to pulling the community together for this worthy cause."

"Both companies have been blessed and believe strongly in giving back," added Dave Dunlap of Consolidated Construction Group Inc. "We believe our project motto, 'People, Passion, Purpose,' really exemplifies what this project is all about and encourages everyone to get involved. Every dollar, piece of material and hour donated to this project will make a difference."

The building team is requesting volunteers to provide their time, support and resources to help ensure the success of this build. They have launched a dedicated Web site, www.extremehomemakeoverstlouis.com containing information about volunteer opportunities, building materials and items needed for the project. Volunteer registration information also will be included, and interested individuals and companies are urged to visit the site to learn how they can help, show their support and register to volunteer.

In addition, Callier Thompson Shea Construction and Design and Consolidated Construction invite all volunteers and those who want to show their support for the project to a kick-off pep rally from 8 – 11 a.m., Aug. 26, 2008, at Manchester United Methodist Church, 129 Woods Mill Rd., Manchester, Mo. 63011. This event will be hosted by Callier Thompson Shea Construction and Design, Consolidated Construction and producers and representatives from the Emmy award-winning television show. All those who are volunteering, donating time or materials, and those who want to support the build are invited to attend.

In 2004, John Shea, CGR, well known as Mr. Fix It on radio's 550 KTRS (Inside Out Show), joined forces with Callier & Thompson Kitchen and Baths and became president of Callier Thompson Shea Construction & Design, LLC. Callier Thompson Shea brings the right professionals together to fit each design build project, whether it be a bathroom or a whole house renovation. Shea's 32 years of construction experience, coupled with Callier Thompson Kitchen & Baths, gives clients the personalized service and expertise they need from design through construction, delivered on time and within budget. Since its inception, Callier Thompson Shea has been awarded two Homer Awards for Outstanding Addition and Whole House Renovation. The company also was awarded the HBA's Remodeler of the Year in 2007.

Consolidated Construction Group is a nationally recognized, award-winning design-build remodeling firm. Consolidated is the most consistently recognized remodeling firm in St. Louis and has received 22 Homer Awards in the last 19 years for innovative design and expert craftsmanship. It was ranked among the "101 Best Companies to Work For" by Professional Remodeler, Professional Builder, Luxury Home Builder and Housing Zone magazine; ranked highest in homeowner satisfaction among all remodelers nationwide, according to NRS Corp.'s National Homeowner Satisfaction Study; and was inducted into Remodeling magazine's Big 50 Hall of Fame in 1990.
